

NCL Rules of Conduct (Simplified)

1. The Individual Game is an individual event - you must participate in this event by yourself. You may NOT collaborate with anyone else.
2. During the Team Game, you may collaborate with anyone on your team (per the Team Roster on cyberskyline.com) without restriction. This does NOT apply to anyone outside of your team, including others from your school who are on different teams.
3. Coaches may NOT assist students during Individual Game, and Team Game (coaches may assist students in the Gymnasium).
4. You may discuss all challenges from each game after they have ended with coaches & fellow players; however, you may NOT post questions or answers online at any point (even after the games have ended).
5. Behave in a professional manner, including on NCL social media channels, the NCL Slack channels, and when interacting with NCL and Cyber Skyline representatives.
6. Follow all rules of engagement against live designated targets on the cityinthe.cloud domain.
7. Do not attack the competition platform (cyberskyline.com).
8. Do not sabotage any game elements, including online resources (e.g. modifying another player's competition environment or editing a Wikipedia page to provide false information).
9. Do not modify any unique IDs assigned to you by the competition platform and do not access competition resources using another competitor's unique ID. Do not misrepresent yourself or use multiple personas.
10. Do not violate any local, state, federal, or international laws.

Can I...	During Individual Game	During Team Game	Before/After the Games
